

Friends of Victoria Park Primary School PTFA

Friends of Victoria Park Primary School - also known as the PTFA - aim to raise money, build the school community, and help enrich our children's education.

The PTFA is run completely by you - volunteers including parents and school staff and you are automatically part of the PTFA on joining the school. As a registered charity, each year we raise thousands of pounds to pay for resources and enrichment activities that the school budget can't fund, so that all the children have access to the best opportunities available.

There are a few ways to stay in touch and find out the latest news. Make sure to look out for our newsletter, visit our website and follow us on social media.
